Hi-QLED

VIDAA

Product appearance may vary by screen size.

The Hisense QD6 Series brings your entertainment to life with rich color, sharp detail, and immersive sound designed for everyday viewing. Powered by Hi-QLED Color technology, it delivers vivid, natural-looking images with enhanced brightness and realistic contrast, so movies, sports, games, and shows all feel more engaging. Dolby Vision helps reveal greater depth and detail in every scene, from bright highlights to darker moments, while Dolby Atmos creates immersive audio that surrounds you with clear, cinematic sound. Enhanced by AI 4K Upscaler and AI Smooth Motion, lower-resolution content appears clearer and fast-moving scenes stay fluid and sharp. Whether you're streaming your favorite series, watching live sports, or enjoying family movie night, the QD6 Series is built to make every moment feel bigger, smoother, and more exciting.

Hi-QLED Color

Vivid and authentic color brings every shade, scene, and skin tone to life exactly as it was meant to be seen. Hi-QLED technology delivers a picture so true-to-life, you'll feel like you're watching through a window, not a screen.

Dolby Vision.Atmos

Great viewing isn't just about what you see. It's about what you hear, too. Powerful audio and a stunning display come together to create something genuinely spectacular. The kind of experience that makes it hard to look away or turn down the volume.

AI 4K Upscaler

Upscale all your content to stunning 4K quality — from old favorites to new releases, advanced processing transforms everything you watch into crystal-clear 4K detail.

AI Smooth Motion

Fast action stays crisp and fluid, delivering flawless motion every time. See a smoother picture with no blur. Motion Rate 120 intelligently enhances fast-moving scenes for clearer, more fluid motion during sports, action movies and gaming.

Game Mode Plus

The moment you pick up a controller, you'll notice it. Reduced input lag, rapid response and silky-smooth performance combine to put you fully in control—reactive, precise and completely in the moment. With support for VRR and ALLM, gameplay stays fluid and responsive with minimized lag and screen tearing.

Total HDR Solution

Experience incredible detail in every scene, exactly the way it was meant to look, with brighter highlights, deeper blacks, and stunning clarity. Whether you're watching a sunny landscape or a dimly lit thriller, the picture always delivers. Backed by support for major HDR formats including HDR10+ Adaptive, HDR10, and HLG, the result is an image that's always rich, vivid, and true to life.

Filmmaker Mode

See and hear every movie exactly the way the director meant you to. Every color, every sound, every frame — nothing added, nothing lost.

VIDAA TV

Experience instant entertainment with lightning-fast power-on and seamless high-speed performance. Enjoy effortless navigation with an intuitive UI, instant content discovery via universal search, optimal viewing through personalized recommendations, and quick TV setup with the VIDAA mobile app.
