65" | 55"

Product appearance may vary by screen size.

The Hisense U8 Series is an award-winning TV that makes for the ultimate game-watching experience. It's enhanced with Mini-LED Pro technology, reaching up to 5,000 nits peak brightness for even sharper contrasts, brighter lighting and more dramatic shadows. Soak up over a billion vibrant shades on your screen with QLED Color. The 165Hz Native Refresh Rate and Anti-Glare Low Reflection Pro panel technology helps you see it all clearly without any interference. And Dolby Atmos along with an up to 82W 4.1.2 Multi-Channel Audio System bring all the sounds of the cinema right to your living room.

# Mini-LED Pro: Up to 5000 nits Peak Brightness & Up to 5000 Local Dimming Zones

See the realism of every shadow cast by the players and the ball. When your TV is backlit by thousands of tiny LEDs, your viewing experience gets even more precise. Think of the LEDs like thousands of pinpoints of light illuminating your screen. And Full Array Local Dimming creates deeper shadows and brighter highlights, while virtually eliminating halos.

### Native 165Hz Panel & 165Hz Game Mode Ultra

Turbo power your gaming! 165Hz Game Mode Ultra has a Variable Refresh Rate of 48Hz to 165Hz, almost as fast as your reaction time. AMD FreeSync Premium Pro, Auto Low Latency Mode and Low Latency MEMC eliminate screen tearing and controller lag. And with our new Game Bar you can control multiple game settings right from your TV remote and on-screen display.

## Anti-Reflection Pro

Keep your eye on the ball all day and all night long. Anti-Reflection Pro incorporates a special filter on the screen to minimize glare and reflections, so you can see the picture in all of its vibrancy and detail without any interference.

## **Total HDR Solution**

See every basket and goal in all its glory. Total HDR Solution distinguishes between the colors you perceive on screen. That means ink-black blacks, not muddled tones and brighter, more vibrant colors with every HDR format, including Dolby Vision IQ, HDR 10+Adaptive, HDR 10, HLG and Advanced HDR by Technicolor.

# 4.1.2 Multi-Channel Surround with 8 Speaker Units

Immerse yourself in all the game sounds: cheers from fans, whistle blows from refs and calls from commentators. The 4.1.2 Multi-Channel Surround creates a captivating home theater experience with left and right primary speakers, left and right surround channels, a built-in subwoofer with deep bass and two up-firing speakers that project sound above you.

### Hi-View AI Engine Pro

Enjoy the game from home, but feel like you're there. Powered by the Hisense proprietary chipset, Hi-View Al Engine Pro automatically optimizes the picture and sound based on the content you are watching. This intelligent feature detects, analyzes and adjusts the details, depth and appearance of everything you watch or play, making every visual even more realistic.

## **QLED Color**

See the exact hue of every blade of grass on the field and every line on the court. QLED Color is made up of quantum dots—very small particles with the ability to display over a billion shades of color. This feature renders every frame with rich, vibrant and realistic color, ensuring that even the most minute details stand out.

## Google TV

Entertainment you love. With a little help from Google. Google TV brings together movies, shows, live TV and more from across your apps and subscriptions and organizes them just for you.
