

# QD7

SERIES

#### AVAILABLE SIZES

100" | 85" | 75" | 65"  
55" | 50" |

## MiniLED

Product appearance may vary by screen size.

The Hisense QD7 Series changes the TV game. It's a solid introduction to realistic Mini-LED contrasts and QLED Color with over one billion shades. Dolby Vision HDR and Dolby Atmos put you in the stands, so you can see every blade of grass, hear every call of the ref and cheer of the fans. And advance your gameplay with Game Mode Plus and 144Hz Game Mode Pro\* by virtually eliminating screen tearing.

#### Mini-LED with Full Array Local Dimming

See more contrast on the field and off. Lots of tiny LEDs make a major difference when it comes to the realism of your picture. Think of them like pinpoints of light illuminating your screen. And Full Array Local Dimming creates deeper shadows and brighter highlights, while virtually eliminating halos.

#### Native 144Hz with AI Smooth Motion (75", 85" and 100")

See all the action clearly, including super-fast breakaways and three-point plays. The Native 144Hz Smooth Motion is powered by advanced features like MEMC, AI Noise Reduction and a built-in highly responsive panel to create an ultra-crisp, blur-free picture—no matter the speed of movement on the screen.

#### AI Picture with AI 4K Upscaler

Stream your favorite live sports with striking clarity. AI 4K Upscaler uses machine learning models to enhance low-resolution content to near 4k quality. Watch beloved movies, home videos and TV broadcasts with sharper edges, more detailed textures and improved visual quality.

#### Game Mode Plus (50", 55" and 65")

Get ready to game on! Game Mode Plus with Variable Refresh Rate and Auto Low Latency Mode make for a smooth, lag-free playing experience. Eliminate screen tearing and reduce input lag, while showing your opponent who's boss

#### QLED Color

See the exact hue of every blade of grass on the field and every line on the court. QLED Color is made up of quantum dots—very small particles with the ability to display over a billion shades of color. This feature renders every frame with rich, vibrant and realistic color, ensuring that even the most minute details stand out.

#### Dolby Vision • Atmos

Never miss a minute of the action—from your couch. Dolby Atmos, the next evolution of surround sound, creates a moving and immersive audio experience, for every call of the ref and cheer of the fans. And Dolby Vision, with more flare and more depth, enhancing the detail of the picture, down to each shadow cast on the field.

#### 144Hz Game Mode Pro (75", 85" and 100")

Unlock the next level in gaming! 144Hz Game Mode Pro has a Variable Refresh Rate of 48Hz to 144Hz for a smooth, lag-free playing experience. This feature feels like an extra life, whether your game of choice is action, adventure, role-playing, multi-player or strategy.

#### Fire TV

Get right to the good stuff. Fire TV puts your favorite apps front and center on one main home screen. So you can quickly find shows, movies, and live TV you love without the endless scrolling.
