* Wireless range may vary due to environmental and computing conditions.

- What's in the box: Keyboard, Mouse, USB receiver, 1 AA mouse and 2 AAA keyboard batteries, User documentation

FEATURES

- You get a reliable connection up to 10 meters away, with virtually no delays or dropouts — even in the busiest wireless environments—thanks to Logitech® Advanced 2.4 GHz wireless connectivity.* And 128-bit AES keyboard encryption helps keep your information secure.
- * Wireless range may vary due to environmental and computing conditions.
- The Logitech® receiver is so tiny, you can plug it in once and forget about it. Plus the mouse features a built-in storage compartment, so you can take your mouse wherever you use your computer.
- A 24-month keyboard and 12-month mouse battery life—plus auto-sleep and on/off switches—mean you can explore QQ, shop Taobao and search Baidu for months without the hassle of changing batteries.**
- ** Keyboard battery life calculation based on an estimated two million keystrokes/year in an office environment. User experience may vary. Mouse battery life may vary based on user and computing conditions.
- Want to turn up the volume on a song? Or check out your favorite website? It's all at your fingertips with eight hot keys for instant access to the Internet, e-mail, play/pause, volume and more.
- You'll be comfortable with this keyboard thanks to the low-profile, whisper-quiet keys and standard layout with full-size F-keys, number pad and arrow keys.

* Wireless range may vary due to environmental and computing conditions.
** Keyboard battery life calculation based on an estimated two million keystrokes/year in an office environment. User experience may vary. Mouse battery life may vary based on user and computing conditions.
Warning: Improper or prolonged use may result in injury.
