Café[™] 1.7 Cu. Ft. Convection Over-the-Range Microwave Oven with Air Fry

CAFÉ

CVM517P4RW2 / CVM517P3RD1 / CVM517P2RS1

ALSO AVAILABLE IN

CVM517P3RD1

Matte Black

with Brushed

Stainless handle

CVM517P2RS1 Stainless Steel with Brushed Stainless handle

FEATURES & BENEFITS

Air Fry - Make your favorite "fried" foods healthy, thanks to a mode that crisps without using oil for frying

Create a streamlined cooking experience - Simplify your cooking steps by using Chef Connect to automatically activate vents and surface lights when a range element is turned on, as well as sync your microwave and range clocks

A simple and smart addition to your culinary repertoire - Fresh vegetables and rice are perfectly prepared with a steam cook button that simplifies the entire process

Say goodbye to guesswork - Enjoy consistently delicious results with sensor cooking controls that automatically adjust the time and power

Delicious results in no time at all - Enjoy oven-quality results in mere minutes with a fast cook setting that combines convection and microwave cooking technology

A microwave that's as versatile as you are - Achieve crisp, golden brown results with a convection cooking setting and a special rack that allows air to circulate around foods for even heat distribution

Brighten up the room - Illuminate the entire cooking surface with crisp, clear LED cooktop lighting that can also save on energy costs

Sparkling clean with just a wipe - Focus on the food and forget the mess knowing that the stainless steel interior with steam clean lets you swiftly wipe away spills and splatters

Like a breath of fresh air - Keep your kitchen ready for guests with a three-speed, 300-CFM venting system that removes smoke, grease, odors and moisture

A subtle reminder for filter replacement - Keep your kitchen smelling fresh and clean with an up-front charcoal filter with indicator light that lets you know when the filter needs to be replaced

Cook more at once - Prepare plenty of food with full-width removable oven rack that allows for multi-level cooking at the same time

Cook your way with just one touch of a button - Enjoy the convenience of one-touch cooking with My Cycle, a custom cycle that remembers the exact time and temperature settings of your favorite foods

CAPACITY

Total Capacity (cubic feet)	1.7 cu ft	
Vent CFM	300	
Exhaust Capacity	300 cu ft/min	

ECONOMICAL/QUIET

Venting Type	Externally Vented

TECHNICAL DETAILS

Electrical Input - 120V Watts	1700
Input Volts/Hertz	120/60

ACCESSORIES

Optional Side Filler Panel Kit	JX36BW1 / J36BDSS / JX36BSS
Recirculating Charcoal Filter Kit	WB02X35607 (included)

WEIGHTS & DIMENSIONS

Approximate Shipping Weight	81.3 lb
Cabinet Width	30 in
Cavity (W x H x D)	21-5/8" x 9-3/4" x 14-1/4"
Net Weight	72.8 lb
Overall Depth	15-9/16 in, 17-15/16 in (including handle)
Overall Height	16-5/16 in
Overall Width	29-7/8 in

CVM517P4RW2 / CVM517P3RD1 / CVM517P2RS1

WARRANTY

Limited 1-year entire appliance
Limited 5-Year Magnetron
Limited 1-year entire appliance
See written warranty for full details

DIMENSIONS AND INSTALLATION INFORMATION (IN INCHES)

Note: Requires 120V grounded outlet. Electrical receptacle must be located in cabinet above microwave oven. No additional wiring, venting or cabinet rebuilding necessary in many cases. Complete detailed, easy-to-follow installation instructions and convenient full-size templates are packed with the microwave oven.

Important Information: When installing the microwave oven over a range, allow minimum of 2" from bottom of microwave oven to top of range backguard to allow for removal of light covers.

Ventilation Options: The microwave ovens are designed for adaptation to the following three types of ventilation:

-Outside exhaust (vertical – as shown)

-Outside exhaust (horizontal)

-Recirculating (non-vented ductless - see Filter Kit drawing)

Installation Information: This information is not intended to be used for installing unit described. Before installing, consult installation instructions packed with product/kit for current dimensional data.

Hood Exhaust Duct: Outside ventilation requires a HOOD EXHAUST DUCT. Read the following carefully.

Exhaust Connection: The hood exhaust has been designed to mate with a standard 3-1/4" x 10" rectangular duct. If a round duct is required, a rectangularto-round transition adaptor must be used. Do not use less than a 6" diameter duct.

Rear Exhaust: If a rear or horizontal exhaust is to be used, care should be taken to align exhaust with space between studs, or wall should be prepared at the time it is constructed by leaving enough space between the wall studs to accommodate exhaust.

Maximum Duct Length: For satisfactory air movement, the total duct length of 3-1/4" x 10" rectangular or 6" diameter round duct should not exceed 140 equivalent feet.

Elbows, Transitions, Wall and Roof Caps, etc., present additional resistance to airflow and are equivalent to a section of straight duct which is longer than their actual physical size. When calculating the total duct length, add the equivalent length of all transitions and adaptors plus the lengths of all straight duct sections. The chart below shows the approximate feet of equivalent length of some typical ducts.

OPTIONAL ACCESSORIES (AVAILABLE AT ADDITIONAL COST)

Filler Panel Kits JX36BSS/JX36BDS

When replacing a 36" range hood, this kit fills in the additional width to provide a custom built-in appearance. For installation between cabinets only; not for end-of-cabinet installation. Each kit contains two 3"-wide filler panels. This is included, not optional accessory at additional cost.

ADDITIONAL ACCESSORIES
