Planning notes
The door panel surface of the appliance extends 1 9/16" (40 mm) from the furniture cavity.
The outer edge of the door handle extends 3 9/16" (90 mm) from the furniture cavity.
For installation underneath cooktops: Distance between the underside of the cooktop and the top edge of the oven cavity: min. 19/32" (15 mm). The planning notes for the cooktops (particularly regarding ventilation, gas/electric connection) must be taken into account.
To achieve the 21 5/8" (550 mm) installation depth, the connection cable needs to follow the slanted edge on the corner of the housing.
Plan a power outlet outside of the cut-out.
The LAN port can be found at the back on the upper left side.
