Key Features

DuoCooling: Uses two completely separate refrigeration circuits to ensure no air is exchanged between the refrigerator and freezer compartments.

PowerCooling System: The PowerCooling fan operates powerfully yet quietly, efficiently circulating and filtering cold air throughout the entire refrigeration compartment.

EasyFresh drawer ensures maximum freshness for fruits and vegetables. Its airtight seal increases humidity, keeping unpackaged produce fresh for longer.

FlexDoorSystem enables smooth, quiet door operation–even independently–while a precision sealing system ensures an airtight closure for improved energy efficiency.

Accessories

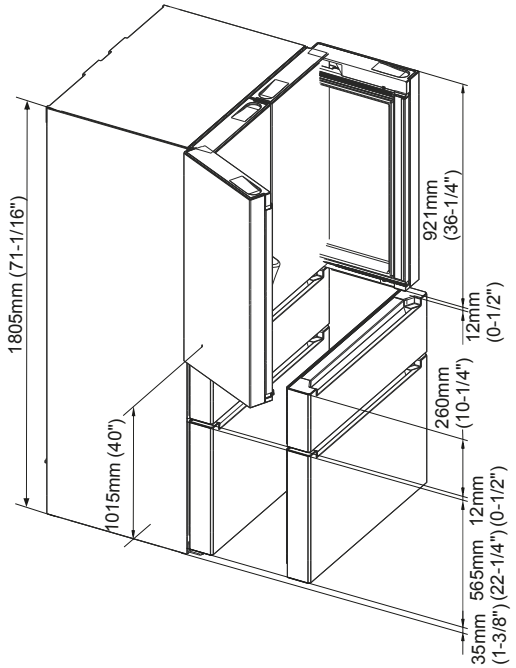

9882460	FreshAir charcoal filter
9883057	Water filter

* Estimated energy cost will depend on utility rates and use. Estimated energy cost based on a national average electricity cost of 14 cents per KWh.
