

About the water filter.

Water Filter Cartridge

The water filter cartridge is located inside the cartridge holder in the back upper right corner of the refrigerator compartment.

When to Replace the Filter

In general the filter cartridge should be replaced every **six months**.

On models with a replacement indicator light, replace the filter when the light turns red.

In either case, the filter may need to be replaced earlier if the flow of water to the icemaker or dispenser (on some models) decreases.

Installing the Filter Cartridge

For more detailed instructions see your refrigerator's Owner's Manual.

- 1 To remove the old cartridge, open the cartridge cover by pushing in where indicated.
- 2 Remove the cartridge by slowly rotating it to the left. A small amount of water may drip down.

⚠ CAUTION: If air has been trapped in the system, the filter cartridge may be ejected as it is removed. Use caution when removing.

- 3 On models without a replacement indicator light, mark your calendar to remind you to replace the filter cartridge in **six months**.
- 4 Remove the protective foil from the end of the cartridge.
- 5 Position the cartridge inside the cartridge holder and slowly rotate the cartridge to the right until it stops. When the cartridge is properly installed, you will feel it "click" as it locks into place. The blade on the end of the cartridge should be positioned vertically. **Do not overtighten.**
- 6 Close the cartridge cover.
- 7 On models with a replacement indicator light, press and hold the **RESET WATER FILTER** pad for 3 seconds.

MODELS WITH A DISPENSER:

Run water from the dispenser for 3 minutes (about 1½ gallons) to clear the system and prevent sputtering. See *To Use the Dispenser* section in your refrigerator's Owner's Manual.

NOTE: A newly-installed water filter cartridge may **cause water to spurt** from the dispenser.

Filter Bypass Plug

You must use the filter bypass plug when a replacement filter cartridge is not available. The icemaker and the dispenser (on some models) will not operate without the filter or filter bypass plug.

Replacement Filters

To order additional filter cartridges in the United States, visit our Website, www.GEAppliances.com, or call GE Parts and Accessories, 800.626.2002.

Filter Model GSWF

Suggested Retail Price \$34.95 USD

Customers in Canada should consult the yellow pages for the nearest Camco Service Center.

State of California
Department of Health Services
Water Treatment Device
Certificate Number

03 - 1559

Date Issued: April 28, 2003

Trademark/Model Designation

GE GSWF

Replacement Elements

GSWF

Manufacturer: General Electric Consumer Products

The water treatment device(s) listed on this certificate have met the testing requirements pursuant to Section 116830 of the Health and Safety Code for the following health related contaminants:

Microbiological Contaminants and Turbidity

Cysts
Turbidity

Inorganic/Radiological Contaminants

Asbestos
Lead

Organic Contaminants

Atrazine
Lindane
2,4-D

Rated Service Capacity: 750 gal

Rated Service Flow: 0.5 gpm

Conditions of Certification:

Do not use where water is microbiologically unsafe or with water of unknown quality, except that systems certified for cyst reduction may be used on disinfected waters that may contain filterable cysts.

Performance Data Sheet
SmartWater Filtration System
GSWF Cartridge

This system has been tested according to NSF/ANSI 42/53 for reduction of the substances listed below. The concentration of the indicated substances in water entering the system was reduced to a concentration less than or equal to the permissible limit for water leaving the system, as specified in NSF/ANSI 42/53.*
(100% safety factors built in for unmetered usage)

Standard No. 42: Aesthetic Effects								
Parameter	USEPA MCL	Influent Average	Influent Challenge Concentration	Effluent		% Reduction		Min. Required Reduction
				Average	Maximum	Average	Minimum	
Chlorine	—	1.845 mg/L	2.0 mg/L \pm 10%	< 0.05 mg/L	0.05 mg/L	> 97.29%	96.43%	\geq 50%

* Tested using a flow rate of 0.5 gpm; pressure of 60 psig; pH of 7.5 \pm 0.5; temp. of 68° \pm 5°F (20° \pm 3°C)

** Measurement in Particles/ml. Particles used were 0.5-1 microns

*** NTU=Nephelometric Turbidity units

Operating Specifications

- Capacity: certified for up to 750 gallons (2,838 l); up to six months
- Pressure requirement: 40–120 psi (2.8–8.2 bar)
- Temperature: 33–100°F (0.6–38°C)
- Flow rate: 0.5 gpm (1.9 lpm)

General Installation/Operation/Maintenance Requirements

- Flush new cartridge at full flow for 3 minutes to purge out trapped air.
- Replace cartridge when flow becomes too slow.

Special Notices

- Installation instructions, parts and service availability, and standard warranty are included with the product when shipped.
- This drinking water system must be maintained according to manufacturer’s instructions, including replacement of filter cartridges.
- Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. Systems certified for cyst reduction may be used on disinfected water that may contain filterable cysts.
- The contaminants or other substances removed or reduced by this water treatment system are not necessarily in your water.
- Check for compliance with the state and local laws and regulations.
- Note that while the testing was performed under standard laboratory conditions, actual performance may vary. Systems must be installed and operated in accordance with manufacturer’s recommended procedures and guidelines.

System tested and certified by NSF International against Standard 42 for the reduction of chlorine, taste and odor, particulate Class I and Standard 53 for the reduction of cyst, lead, Lindane, Atrazine and turbidity.

Manufactured for: General Electric Company, Louisville, KY 40225

Water Filter Cartridge Warranty.

Contact us at www.GEAppliances.com,
or call 800.GE.CARES.

Staple your receipt here.
Proof of the original purchase
date is needed to obtain
service under the warranty.

For The Period Of: We Will Replace, At No Charge To You:

Thirty Days

From the date of the
original purchase

Any part of the water filter cartridge which fails due to a defect in materials or workmanship during this
limited thirty-day warranty.

What is Not Covered:

- Service trips to your home to teach you how to use the product.
- Improper installation.
- Failure of the product if it is abused, misused, or used for other than the intended purpose or used commercially.
- Replacement of house fuses or resetting of circuit breakers.
- Replacement of the water filter cartridge due to water pressure that is outside the specified operating range or due to excessive sediment in the water supply.
- Damage to the product caused by accident, fire, floods or acts of God.
- Incidental or consequential damage caused by possible defects with this appliance.

This warranty is extended to the original purchaser and any succeeding owner for products purchased for home use within the USA. In Alaska, the warranty excludes the cost of shipping or service calls to your home.

Some states do not allow the exclusion or limitation of incidental or consequential damages. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. To know what your legal rights are, consult your local or state consumer affairs office or your state's Attorney General.
