

RISE 24" BUILT-IN STEAM AND CONVECTION WALL OVEN

Signature Features

JENNAIR® ASSISTED COOKING

Take your pick. With 72 different pre-set oven modes and seven specialty settings, you can create a wide variety of dishes minus the guesswork—using steam, convection or both.

3.5-INCH FULL-COLOR LCD DISPLAY

The full-color LCD touchscreen is compact and packed with dynamic features that present you with a guided JennAir® Assisted Cooking experience. Navigate effortlessly through settings with inviting controls that respond to a light touch.

RISE™ DESIGN EXPRESSION

Forged for an era of striking proportions, robust lines draw the eye and an asymmetrical, diamond-knurled texture wraps around a strong, postured handle.

REMOTE ACCESS

Preheat. Check cooking status. Personalize settings. Connect to WiFi for real-time notifications and control your appliance from anywhere. Tap and swipe on both iOS and Android devices.

TEMPERATURE PROBE

Know when dinner is done without ever opening the door. Four points of contact deliver temperature readings visible on the LCD screen.

MY CREATIONS

Curate recipe presets at will. Bake for 30 minutes, broil for four and keep dishes warm until you're ready to dine—all without getting up to reset the oven for each stage.

STEAM PLUS CONVECTION MODE

Come together. Use both steam and convection all at once for food that's tender inside and roasted or crisped outside.

FLEXIBLE INSTALLATION

Make your move. With only a 120-volt connection required and an easy-to-fill water reservoir, this oven transcends the confines of the kitchen to go just about anywhere in your home.

1.3 CU. FT. CAPACITY

Explore your options. There's room for whatever you're craving, whether it's a quiche or a roasted chicken.
