Key Features & Benefits

600 CFM/65K BTU Threshold

Allows installation over any KitchenAid® regular 36- or 30-inch range or cooktop, and some commercial-style cooking surfaces with outputs up to 65K BTU.

Perimeter Ventilation

Increases ventilation system efficiency by pulling air from the edges of the hood and speeding up the movement of air at the center, allowing it to efficiently handle up to a 65K BTU total output.

Auto Speed Setting

Takes the guesswork out of protecting cabinets from steam, grease, and moisture by automatically adjusting fan speed to ventilation needs depending on the heat being produced.
