Certifications & Warranty

Larger Capacity

4.5 cu. ft. capacity lets you tackle more laundry at once, including a king-sized comforter, so you can do fewer loads overall.

Power Wave Impeller™

A dynamic water flow moves clothes and water together, lifting away tough stains while treating fabrics with care.

Dual-Phase Dispenser

Dispenses detergent in equal amounts at two stages for better soap distribution.

Soft-Close Glass Lid

Special hinges prevent the lid from slamming shut.

Anti-Vibration

This innovative 4-way suspension system reduces horizontal tub movement for less vibration and quieter washing.

SmartHome Connectivity

Check wash cycle status from anywhere using the SmartHome app and voice assistant devices.
