Certifications & Warranty

50/50 Flex™

The innovative 3-way convertible design allows you to customize each compartment for frozen or fresh food storage. This freezer easily converts between all-freezer, all-fridge, and bottom-freezer modes.

Large 20 cu. ft. Capacity

This flexible second freezer offers 20 cu. ft. of storage space for both frozen and fresh foods.

Garage Ready

Designed and tested to operate efficiently in non-climate-controlled environments. (38°F to 110°F for fridge configurations, 0°F to 110°F for freezer configurations)

User-Friendly Controls

The interior control panel allows you to easily switch each compartment between freezer and refrigerator mode.

Reversible Doors

Using the included hinge kit, you can install the doors to open in either direction to fit your available space.

Flexible Storage

Each compartment is equipped with 2 adjustable shelves, 2 drawers, and 2 door storage bins to keep food organized and accessible.
