FEATURES & BENEFITS

Handleless Design

Effortlessly open and close your oven with a gentle press of a button, ensuring convenience and smooth operation in the kitchen. Moving away from traditional oven doors, this model is an ideal match for kitchens with a continuous, handle-free design, ensuring a seamless flow across the cabinetry.

Hands-Free Control

Experience the ultimate kitchen convenience with the SmartHQ™ app's voice-activated oven door. Connect your SmartHQ™ account with Google's voice assistant for handsfree control—simply speak to a compatible device* to open your oven door. Multitasking in the kitchen has never been so effortless.

*Device must be compatible with the Google Home app.

Cook With Confidence

Using the large 5" touchscreen interface, you can cook with a favourite method, hero ingredient, cooking function or recipe. Your oven will guide you through the steps, or change the temperature and heat type automatically, depending on your selection.

Sized To Suit

The compact height of this combi steam oven allows for versatile placement. You have the flexibility to install at a convenient height to suit your kitchen design and preference.

Preserve Flavor And Nutrients

Perfect for delicate dishes like snapper or salmon, steam cooking preserves nutrients and texture, offering a healthier way to enjoy meals. With specialized steam functions, including Sous Vide, the combi steam oven brings out the best in every ingredient, ensuring your creations are both nutritious and delicious.

Reheat And Restore

Give your leftovers a new life with our Steam Regenerate function, ensuring meals like roast chicken and risotto retain freshness and flavor. For that just-baked quality in pastries, bread, and pizza, use Crisp Regenerate for the perfect reheat that keeps every bite deliciously crispy.

Steam Clean

Keep your oven spotless with the natural power of steam. The oven's steam cleaning feature simplifies maintenance by helping lift stubborn spills, allowing for a guick wipe-down.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
