The Terrace (LST9C)

KEY FEATURES (page 1 of 2)

PICTURE

Neo QLED

High-quality 4K QLED picture engineered to look incredibly vivid and bright, especially in daylight.

Wide Viewing Angle with Anti-Glare

Engineered to reduce glare, get a great picture from every seat. Whatever you do, you'll get a great view. The Terrace has anti-reflection tech to limit light distraction and reduce glare—even from direct sunlight.

Direct-Sun Protection

Get fresh air and a fresh view with incredible 4K clarity. This outdoor TV is made to look vivid—even outside in different light. See every detail, all on a screen with built-in direct-sun protection.¹

Neo Quantum HDR+

Our best HDR picture where brilliant color and the deepest, darkest details combine to deliver mesmerizing realism.

Neural Quantum Processor 4K¹⁶

You don't even have to lift a finger, the Quantum Processor does the work for you, automatically transforming your content into 4K.¹⁶

100% Color Volume with Quantum Dot

Quantum Dots produce over a billion shades of color that stay true to life, even in bright scenes.

Auto Game Mode (ALLM)

Game faster with an optimized screen that gives you more control with dramatically less lag.

Motion Xcelerator

Whether it's big action or slow suspense, you'll see every colorful twist and turn in its full glory with vivid color and depth in every detail.

Adaptive Picture™

Your TV reacts and adjusts to the lighting conditions around it.

DESIGN

IP56 Rated for Durability

The Terrace is uniquely designed to be durable, earning an IP56 rating—an international system that measures outdoor electronics protection against dust and water.

Ultra-Bright Picture Quality

Details stay crisp all year round. With brightness that automatically adjusts to light and rich, accurate color, you can stream your favorite shows—even outside.¹⁴

SMART FEATURES

Smart TV Powered by Tizen™

Go beyond smart TV with next-gen apps, super-easy control and a host of enhancements that elevate the TV-watching experience.

Universal Guide

One simple on-screen guide organizes your streaming and live TV content while also making recommendations.

Ambient Mode+

Elevates your space by turning a blank screen into décor, artwork, pictures or other visuals.

Multiple Voice Assistants

Just speak up—your favorite Voice Assistant is built-in to your Samsung outdoor TV for easy access outside.

TV Plus

Enjoy your favorite content through virtual channels.

Multi View

Easily send smartphone content to your TV to simultaneously display live and casted content, share photos or visualize music.

SolarCell Remote™

Turn up the volume on sustainability with the innovative SolarCell Remote™. It features a solar panel for charging, as well as other smart features including a built-in microphone to use with your favorite voice assistant.

SmartThings Compatible

Take control of your connected devices with SmartThings on your screen. From the comfort of your couch, you can turn off lights, check the door and more—using just your voice or remote. With this built-in app, you've got instant access to them.¹⁵

The Terrace (LST9C)

KEY FEATURES (page 2 of 2)

CONNECTIONS

HDMI

Enjoy higher-quality audio and video with an HDMI connection that transmits both signals over a single cable. Compatible with next-generation Ultra HD Blu-ray™ players and HDR content decoding. Includes 1 Audio Return Channel (ARC).

Wi-Fi

Enjoy your favorite on-demand content seamlessly through your existing network with built-in Wi-Fi (802.11AC).

AUDIO

Adaptive Sound

Don't miss another word. Adaptive Sound dials up the dialogue and other crucial sounds on the screen by tuning into what you want to hear most. In real time, it analyzes the sound in every scene of your content, to automatically adjust and equalize your audio.

INDUSTRY CERTIFICATIONS

4K Ultra HD Connected

All Samsung 2023 4K UHD and QLED televisions comply with the CTA 4K Ultra High-Definition Connected definition requirements. The trade organization known as the Consumer Technology Association (CTA™) is considered an industry authority on engineering standards for consumer electronics in the United States. Visit www.cta.tech for more information.

HDR10+

HDR10+ advances the current industry standard of High Dynamic Range (HDR) and HDR10 TV formats. As an upgraded version of HDR10, HDR10+ adds dynamic metadata to each frame. This optimal HDR data enables advanced chipsets from leading manufacturers to create a true-to-life picture across a wider range of displays.
