- Omnidirectional Block Design to match Quad/ Bar 9/ Bar 8/ HT-A9/ HT-A7000/ HT-A5000/ HT-A3000/ HT-S2000

Features

Add deep, rich sound to your HT-A9/HT-A7000/HT-A5000 soundbar

The SA-SW3 subwoofer is designed to pair to HT-A9 Home Theater System and HT-A7000 or HT-A5000 soundbar to further the immersive sound experience

Direct wireless connection²

Free of wires for ease of use and peace of mind. The SA-SW3 wireless subwoofer makes a Bluetooth connection with the HT-A9 Home Theater System and HT-A7000 or HT-A5000 soundbar so that the subwoofer can be placed in the most desirable locations without the hassle or worry that long, winding wires bring.²

Σ Magnetic Circuit for deep, powerful bass

The Σ Magnetic Circuit enables deep powerful bass by maximizing the magnetic force that drives the voice coil. Separated Notch Edge improves vertical amplitude symmetry, resulting in clear sound quality.

Omnidirectional Block Design

Sophisticated round edges represent a single solid block of room-filling sound. The rich materials and minimalist design fits seamlessly into any living room environment.

Set up in seconds

Since the SA-SW3 wireless subwoofer is built specifically for use with the Sony HT-A9 Home Theater System and HT-A7000 soundbar, setup is quick and easy. Simply power up and connect to supported soundbar.
