CLEAR GOURMET ICE MAKER

15" UNDERCOUNTER ICE MAKER

Automatically produces up 65lbs of clear gourmet ice per day

The XOU1565IMS series ice maker produces large cube gourmet ice that is crystal clear ideal for use in all kinds of beverages. That's because the rectangular bell shaped cubes are designed to melt slowly and minimize any dilution. The spray molding process allows impurities that can add taste or odor to be continuously washed away. It is ice created for the purist in you.

Choosing the right ice matters.
